Impending Doom

Vandal Savage, move over. There's another evil being whose villainy has survived the millennia... and later this summer, readers will learn how and why.

Thulsa Doom is a sort of linchpin in *Robert E. Howard*-related continuity. This villain, who made his debut appearance in a Kull tale written by Howard in 1928 (although the story didn't actually see print until almost four decades later), has faced off against Kull, Conan, and Red Sonja at one time or another. And now *Arvid Nelson & Lui Antonio* will reveal just where Thulsa Doom came from, what set him on the path of evil, and why his malevolence has survived the centuries.

Writer *Arvid Nelson* offered a brief run-down on the character. "The Thulsa Doom people are most familiar with is the character played by *James Earl Jones* in the movie ***Conan the Barbarian***. That's going to be our biggest frame of reference - he ends his life as a false prophet and a sorcerer, but it doesn't begin that way. In the ***Conan*** film, one of the characters says Thulsa Doom might be 'a thousand years old.' That always intrigued me..."

Like Conan, Thulsa Doom is a *Robert E. Howard* creation that has appeared in prose, in film, and in comics. But never before have readers found out exactly where Doom came from. "Our story is Thulsa's pre-history, a part of his life that's never been explored before," Nelson said. "It begins with the destruction of Atlantis, thousands of years before Sonja's time. Thulsa is trying to keep his world from being ripped apart, but it's an impossible task. And there's a darkness inside of him that's always threatening to swallow him. That old saying 'when fighting monsters, be careful lest you become a monster yourself' is very true for him."

Part of the inspiration for this comic book series is the recently-announced Djimon Hounsou ***Thulsa Doom*** film project. "My understanding is they're still in the early stages of developing the film. Obviously, the comic is a big step forward in visualizing certain paths the story on the big screen might take. I'd be pleased as punch if anything we developed for the comic found its way onto the screen!"

Dynamite publisher *Nick Barrucci* explained that the film actually came about "because of *Djimon (Hounsou's)* desire to be Thulsa Doom, and tell the full circle story of the character. It's a rich story, and someone as talented as Djimon can help move it forward. Without sounding too forward, Djimon *is* Thulsa," Barrucci said.

Nelson said that his Thulsa Doom origin story arc is "a lot like an old-school Japanese samurai flick, actually—that, or a spaghetti western. Thulsa Doom is something of a mystery—he gets caught up with a band of warriors trying to save the shattered remains of a city-state. But Thulsa, because of his past, ends up causing a lot more harm than good. More than that I can't say. You'll just have to read the story!"

Barrucci explained why Dynamite decided to go with a ***Thulsa Doom*** series rather than a project pitting the villain against their sword and sorcery heroine Red Sonja. "Thulsa is a rich character with an untold story; there was a lot of room for creative exploration. Once we had a feel for where we were going, and were able to bring in *Alex Ross* on covers, it started coming together. Bringing in *Arvid Nelson* and *Lui Antonio* on the creative was the icing on the cake."

Artist *Lui Antonio*, who first came to the attention of American readers with his work on Dynamite's ***Terminator: Revolution*** series, admits that he's particularly attracted to projects like ***Red Sonja*** and ***Thulsa Doom.*** "I much prefer illustrating babes with blades and fantasy tales filled with magic. I'm less keen on robotics unless there's a horror-suspense element," he said.

Antonio may be a relative newcomer as far as American readers are confirmed, but he's actually been working in comics for more than a decade. "I started as an illustrator in the local comics industry here in the Philippines, where I worked for about eleven years," Antonio said. "When the Philippines comics industry collapsed, I worked in advertising for three years before I found myself returning to comics once again. This time, though, I began to explore the international market, and that eventually brought me to Dynamite, where I've been working to build a reputation with American comic fans."

Robert E. Howard's stories operate in a world of stark contrasts; his heroes follow their own harsh code of right and wrong, while his villains seem to be thoroughly evil, unlike many of today's more sympathetic adversaries. So how does Nelson make that work in comics form? Does he temper the evil with some essence of humanity as is the case with Doctor Doom or Darth Vader, or does he just let the bad guy do his evil thing and wreak havoc on the world around him? "I've always thought the best villains are the ones you can sympathize with. Like Magneto--he survived the Nazi concentration camps. It's understandable if he has a dim view of human beings. That's a big part of what we're doing with Thulsa Doom--showing why he turned out the way he did."

Since Nelson wrote Dark Horse's ***Kull*** series prior to taking on the saga of Thulsa Doom, is there any chance that this story willinclude any surreptitious links to Kull continuity, or will it be set in the world of Dynamite's ***Red Sonja***

"None of the above!" Nelson said with a laugh. "***Thulsa Doom*** takes places thousands of years after Kull's time, and thousands of years before Conan's and Sonja's. It's an epoch in Howard's prehistory of Earth that's completely unexplored, so I'm very excited about it!"

Is there a possibility that readers could see a Dark Horse-Dynamite crossover deal that might use Thulsa Doom as a pivotal character in a story involving Kull, Conan, and Red Sonja, since he's faced all three at one point or another? "We're certainly open to it at Dynamite," Barrucci said. "We've mentioned it a few times, but there's nothing in the works right now."

While Nelson is now working on his second Howard-based project, he admitted that his first heroic fantasy protagonist was neither Conan, Kull, or Red Sonja. "I literally grew up on He-Man, and then graduated to Conan proper through the art in ***Heavy Metal*** magazine. Actually, I probably started reading ***Heavy Metal*** when I was too young—around eleven or twelve. It permanently warped my mind. ***Kull*** and now ***Thulsa Doom*** are the sad, sad result."

Should ***Thulsa Doom*** leave the audience wanting more, would Nelson like the opportunity to continue chronicling the villain's adventures? "I very much hope to," Nelson said. "The artist I've been paired with, *Lui Antonio*, is fantastically talented, and I've grown very close to Thulsa. I feel like we're doing something distinctive and special with Howardian fantasy."

As for the ***Thulsa Doom*** movie, *Nick Barrucci* confirmed that "preproduction work has begun on the film,"but he was reluctant to offer any more information than that. "I don't want to jinx it—and you never know what could happen next in Hollywood! Djimon and everyone behind the scenes has put a lot in to carry the project forward, but it's not at a stage where there's an awful lot that we can share with fans. But I promise that there *will* be more information forthcoming."

Red Sonja Presents Thulsa Doom #1, a $3.50 comic, is scheduled for late August release.

CSNsider

•*Mike Carey & Alex Ross* are set to make Human Torch a hot concept; the duo are launching an eight-part series this fall starring Jim Hammond, the original Golden Age Human Torch. Check in with *CSN* next week for more news on the project.

•Spidey fans who miss the married Peter and Mary Jane take heart: you'll be able to see the couple every week in the pages of ***Comic Shop News!*** Beginning next week, *CSN* will be carrying the *Stan Lee*-written ***Spider-Man*** comic strip, which is the only source for new tales of a happily married Spider-Man.

•Marvel has oodles of 70s and 80s Decade variants in the works over the next several weeks. One of the most eye-catching of the bunch is the ***Amazing Spider-Man #599 70s Decade Variant,*** which features a Nixonesque take on the mega-selling Barack Obama cover design. These Decade covers are limited incentive variants, so let the folks at your friendly neighborhood comic shop know if you're interested!

•IDW has landed the rights to produce comics and graphic novels based on the works of horror/suspense writer *Robert Bloch*. "Bloch is one of the established masters of horror, and we are really looking forward to offering his stories to existing fans and to bringing in new ones," IDW CEO *Ted Adams* said. Look for the first Bloch projects in early 2010.

•In spite of a huge overprinting, DC has sold out of the bargain-priced first issue of *Mike Carey & Peter Gross's* ***The Unwritten.*** The book will be back on shelves on July 1st in a second printing, which will feature a recolored version of the original cover image and a new $1.99 pricetag.

•Marvel has announced a trio of reprintings, as ***Planet Skaar Prologue, Wolverine #72,*** and ***Captain America #50*** all go back to press; the new editions, complete with variant covers, should be in stores on July 1st.

A Dirge for Titan

For years, *Roman Dirge* has been one of the most highly acclaimed creators to be published under the Slave Labor Graphics' imprint—but Dirge is about to relocate, making Titan Books his new, exclusive home.

Writer, artist, and professional magician, Dirge is best known for his series ***Lenore,*** "the cute little dead girl" named after the *Edgar Allan Poe* poem of the same title. The character's darkly humorous and mischievous exploits have already established a huge cult following worldwide, and Titan now plans to propel her – and her creator – into the mainstream.

"I consider *Roman Dirge* to be one of the most exciting, talented and fun-filled comic creators of today," Titan's Managing Director, Nick Landau said. "We're very excited to have concluded a worldwide deal with Roman that not only brings his backlist back into print, but will allow him to create new ***Lenore*** comics and collections as well as a whole new range of vibrant, hilarious and bizarre character books".

Dirge said that is "thrilled to be working with Titan. They have a lot of great ideas to facilitate the shoving of my little zombie girl into more poor unsuspecting peepers."

Titan launches its ***Lenore*** line in July with an exclusive signed limited edition of ***Lenore: Noogies,*** which features an exclusive alternate cover and four art cards featuring work by Dirge. After that, August brings something old, something new: the "something old" is a regular edition of ***Lenore: Noogies,*** while the "something new" is the all-new ***Lenore Volume 2 #1.*** Available with two covers, this is the first new ***Lenore*** comic in two years, and finally reveals her origin story!

Titan has plans to bring all previously-released Dirge material into print in new editions; additionally, they will offer art books focusing on a range of Dirge's work, including unpublished illustrations, paintings and strips.

Madman Going Out with an Atomic Blast

Bad news for fans of *Mike Allred's* most famous creation: ***Madman Atomic Comics*** is coming to an end this August—but Allred assures readers that the series is going out with a bang!

"***Madman Atomic Comics*** marks the end of an era, but definitely not the end of ***Madman*** at Image," Allred said. "***Madman Atomic Comics*** was a really fun time for me, Laura, Madman and friends. Working at Image gave us an unprecedented freedom with the book, allowing us to experiment like never before! I hope fans have enjoyed the trip thus far and will be back with us on the next leg once we get to it!"

Madman Atomic Comics #17 wraps up a two-year run for the series—the character's longest run as far as consecutive issues is concerned. The final issue will also tie Allred's ***Red Rocket 7*** series to Madman continuity for the first time—and both ***Madman Atomic Comics*** and ***Red Rocket 7*** will link to Allred's upcoming audio CD ***The Gear: Left Center of the Universe.***

Don't mourn ***Madman Atomic Comics'*** passing for too long, though, because Frank Einstein isn't gone for good; Allred promises that he'll return to Image Comics in a different form in the not-too-distant future.

Madman Atomic Comics #17 is slated for mid-August release.

Dynamite Goes Through the Looking Glass

Their ***Sherlock Holmes*** and ***Complete Dracula*** projects having proven that there's an enthusiastic market for well-crafted adaptations of literary classics, Dynamite Entertainment has announced their next classics project: *Lewis Carroll's* ***Alice's Adventures in Wonderland.***

Leah Moore & John Reppion, writers of both ***Sherlock Holmes*** and ***The Complete Dracula,*** have signed on to adapt Carroll's Alice tales to comics in ***The Complete Alice in Wonderland.*** Unlike most other comics projects based on ***Alice,*** this will be a complete adaptation and not a reinvention or reinterpretation of Carroll's classic.

"***The Complete Alice*** is a project that we're very excited about," *John Reppion* said. "People seem to have fixated on the idea of re-imagining the Alice stories for a long time now, but *Lewis Carroll's* tales are already so fantastic- their logic so beautifully and eerily surreal yet familiar that we feel they more than stand up today and will work wonderfully in comics."

"When we first discussed ***The Complete Alice In Wonderland,*** Leah and John were brought up, as we were very happy with their ***Complete Dracula*** story and ***Sherlock Holmes*** story," Dynamite President and Publisher *Nick Barrucci* added. "***Alice*** seemed like a 'no brainer' to bring them on board. When we asked them, they immediately agreed, and we can't wait to bring the 'dynamite' story to fans."

Lewis Carroll (the pen name for author, mathematician, and logician *Charles Lutwidge Dodgson)* first published his stories of young Alice and her adventures in Wonderland in 1865, continuing the fantasy saga with a darker sequel seven years later. The tales remain incredibly popular with children as well as adults to this day. The first book, ***Alice's Adventures in Wonderland,*** follows Alice down a rabbit hole, into a world filled with anthropomorphic animals and bewildering characters such as the Mad Hatter, the Queen of Hearts, and, of course, the Cheshire Cat.

The Complete Alice in Wonderland is slated to debut in the fall of 2009.

The following comics and comics-related books are tentatively slated for release on the dates given, based on the latest information provided by the publishers at press-time; if no date is listed, the books are tentatively scheduled for release sometime in the month of July.

At the request of many retailers, fans, and publishers, we offer Diamond Comic Distributors' code numbers after the publisher's name for each item to make it easy for stores to special-order items for you, should they not be a part of your comic shop's standard order.

Jeff Lemire takes readers to the tiny, isolated fishing village of Large Mouth, which never saw much excitement - until the arrival of the stranger, that is. Wrapped from head to toe in bandages and wearing weird goggles, he quietly took up residence in the sleepy town's motel. Driven by curiosity, the townfolk quickly learn the tragic story of his past, and of the terrible accident that left him horribly disfigured. Eventually, the town embraces the stranger as one of their own - but do his bandages hide more than just scars?

•**STAR WARS: DARK TIMES BLUE HARVEST #0** 7/29 Dark Horse MAY090011 $2.99

Former Jedi Dass Jennir accepts a job that puts him on a collision course with not one, but two deadly outlaw gangs! For the first time in print, here are the introductory chapters to 'Blue Harvest' from MySpace Dark Horse Presents. The sixteen pages of story are presented two ways: first in color as they appeared online, and again in their raw, penciled beauty

•**STAR WARS: INVASION #1 (OF 5)** 7/1 Dark Horse MAY090009 $2.99

This series is set twenty-five years after the Battle of Yavin. The Jedi, and the galaxy, are facing their first real threat since the Sith were defeated: an invasion of hostile warriors called the Yuuzhan Vong. The forces of the New Republic and the fledgling New Jedi Order stand ready to face the invaders, but Luke Skywalker is about to discover that it's not his galaxy anymore . . .
